

Signaling Solutions for Converging Networks

ADAX EUROPE LTD SIGNS RUSSIAN PARTNER TELECOM EXPRESS

29 August 2006, Reading, UK - Adax Europe Ltd, the industry leader in high-performance signaling infrastructure, has announced a strategic partnership with Moscow-based Telecom Express, a leading technology reseller and systems integrator, which promises to strengthen Adax's position in the Russian telecoms market.

The appointment of a sales partner has recently become necessary due to the rapid expansion of the Russian economy and the accelerating demand for telecoms network infrastructure in Russia. Under the terms of the partnership, Telecom Express will support Adax's expansion with a range of joint marketing and commercial activities and also offer local support for Adax's hugely successful SS7, ATM and SIGTRAN product portfolio.

Robin Kent, Director, European Operations for Adax comments: "Adax is pleased to announce this new partnership and we are very confident that Telecom Express's extensive knowledge and experience in the telecommunications market will open up new opportunities in the Russian region for both companies. This partnership will not only benefit new customers, but also existing customers of both Telecom Express and Adax."

"Thanks to this partnership we will be able to meet the demands and requirements of our customers in the field of networks development infrastructure even more efficiently", said Andrey Filatov, CEO, Telecom Express, - "Adax's solution will allow Telecoms operators to save CAPEX & OPEX, up to 10 times, on signaling traffic".

Adax offers a complete set of protocol controllers and signaling gateway configurations that cover a vast range of signaling protocols and popular hardware formats to provide the right solution for any signaling requirement. Adax high performance products are available for SS7, ATM, and IP protocols and with Telecom Express' ability to provide superior professional services and support, it is certain that this partnership will bring fantastic opportunities to both parties and to Russian customers.

The partnership deal will come into effect immediately.
